Website: http://fibredust.com
FibreDust LLC is a US-owned private company founded in 2002 to provide growers with organic, renewable, eco-friendly substrate. Our close collaboration with the US horticulture industry, agricultural experts and the everyday consumers inspired introduction of coco peat to potting soils, in hydroponics operations, to vegetable and flower growers and in a multitude of other applications.

In the last decade the company has grown to become one of the largest manufacturers and suppliers of coco peat. Multiple locations in India and Sri Lanka insure our ability to deliver products globally in a timely matter. Customers in the Americas are able to place their orders with the ONLY US based coir manufacturer and producer, using time zones that allow for easy communication.

Scroll down for product info
**5 KG Coir Block**

Sold ‘naked’ for production or wrapped for resale

30x30x12cm (12x12x6in)
Water holding capacity 7-8
Air Filled Porosity 10-12%
Electrical Conductivity <.5
pH 5.8 to 6.8
Screened to 6mm or custom
Custom Blends Available
OMRI Listed

Pallet qty:  200
Pallet wt:   1 metric ton
40’ HC:  20 pallets, 20 MT

Expands to 2.5 CuFt

The Easiest Way to Repair Lawns and plant seeds!

Seed Stitchers punch right through dead grass and even mulch. No need to lug topsoil or remove sod just... Stitch Sow Grow!
SpongEase Products

Retail Ready Coir Products

SpongEase™
The Perfect Potting Soil

Directions:
1. Unwrap block and place in a large mixing container.
2. Slowly add up to 5 gallons and let the block hydrate fully.
3. Mix up SpongEase with a shovel.
4. Add more water if needed.

Spores can contain fungi or nutrients for optimal results. It is recommended to add fertilizer at the manufacturer’s suggested rate.

EnRoot™
Radicle Innovations
GreenEase Micro-Green Kits

Introduce your customers to growing healthy micro greens the EASY way! 10 packs of 10x20 or 10x10 jute pads are perfect for home micro green production.

Biodegradable Hydroponic Grow Pads: 10 Pack

Made to Fit into 20" x 10" standard growing trays
- Good for all microgreens, micro herbs, wheat grass and more
- Made from natural jute fibers
- Absorbs and holds maximum amount of water
- Perfect medium for roots
- 100% biodegradable
- Free from plastic contaminants
- Disposable

* Natural jute fiber is designed to effectively control water, allowing seeds to thrive in a variety of hydroponic systems. It provides a method of growing soil type sprouts without the mess of soil.
